

Learning Machines - Flowchart

Notations

- θ - Model trained using data up to time T
- x_t - Patient's features up to and at time $t > T$
- \hat{y}_t, σ_t - Prediction \hat{y}_t and its associated uncertainty σ_t from model
- I_t - Interpretation of model decision
- y_t - Practitioner's decision
- r_t - Treatment outcome

Learning Machines

Learning Machines

θ - Model trained using data up to time T
 x_t - Patient features up to and at time $t > T$
 \hat{y}_t, σ_t - Prediction \hat{y}_t and its uncertainty σ_t
 I_t - Interpretation of model decision
 y_t - Practitioner's decision
 r_t - Treatment outcome
